### ● GENERAL & SPECIALITY DISTRIBUTION

A single integrated package for multiple locations. Includes the ontrak™ Price Matrix™ that handles sophisticated pricing issues, interface with vendors and customers and manages quotes, sales orders, purchase orders, A/P, A/R, Item Manager, Inventory and Service Scheduling. It is all of the software you need for your growing Distribution company.

### QUESTIONS & ANSWERS

- How long does it take you to get a quote or sales confirmation to your customer? With ontrak™ the document is in their inbox in a matter of seconds.
- Can your customers release orders using only a standard browser? They can with ontrak™. You make the Sales Order and the customer tells ontrak™ when and how many to ship.

### ● FOODS, METALS & BULK GOODS

Keeping Lot and Batch numbers under control can be a big task. If you cut smaller lots and batches from purchased goods for resale, and need to track the numbers throughout the process, ontrak™ Metals and Bulk Goods can make tracing goods a easy and quick task. Applications in food, medical, military and high reliability speciality products.
